**Subject:** Fwd: U&O O&G Fed Partners - webinar training request

See my email below re BLM training request. Who should I work with to pull a webinar together?

Thanks,

Joan -

We have a request from BLM (and BIA and OST interested too) for a webinar-delivered training on a sort of CAA 101 re ozone attainment :

- what are the ozone numbers now (design value calls, various monitors considered, etc)
- timeline of designation process
- implications of different classifications (what's involved in SIP/FIP, demonstrating

coming into attainment, etc)

- definition of Uinta Basin air shed re designation

OK with you for me to reach out to Carl about this?

Also, I described our RARE grant project to measure emissions from pneumatic controllers in UB. BLM would like to join our other collaborators, UDAQ and Ute Tribe. We will be doing a roll-out on project plan to those three on ~2/2.
